
WebSERVE/ Disclosure

ウェブサーバ

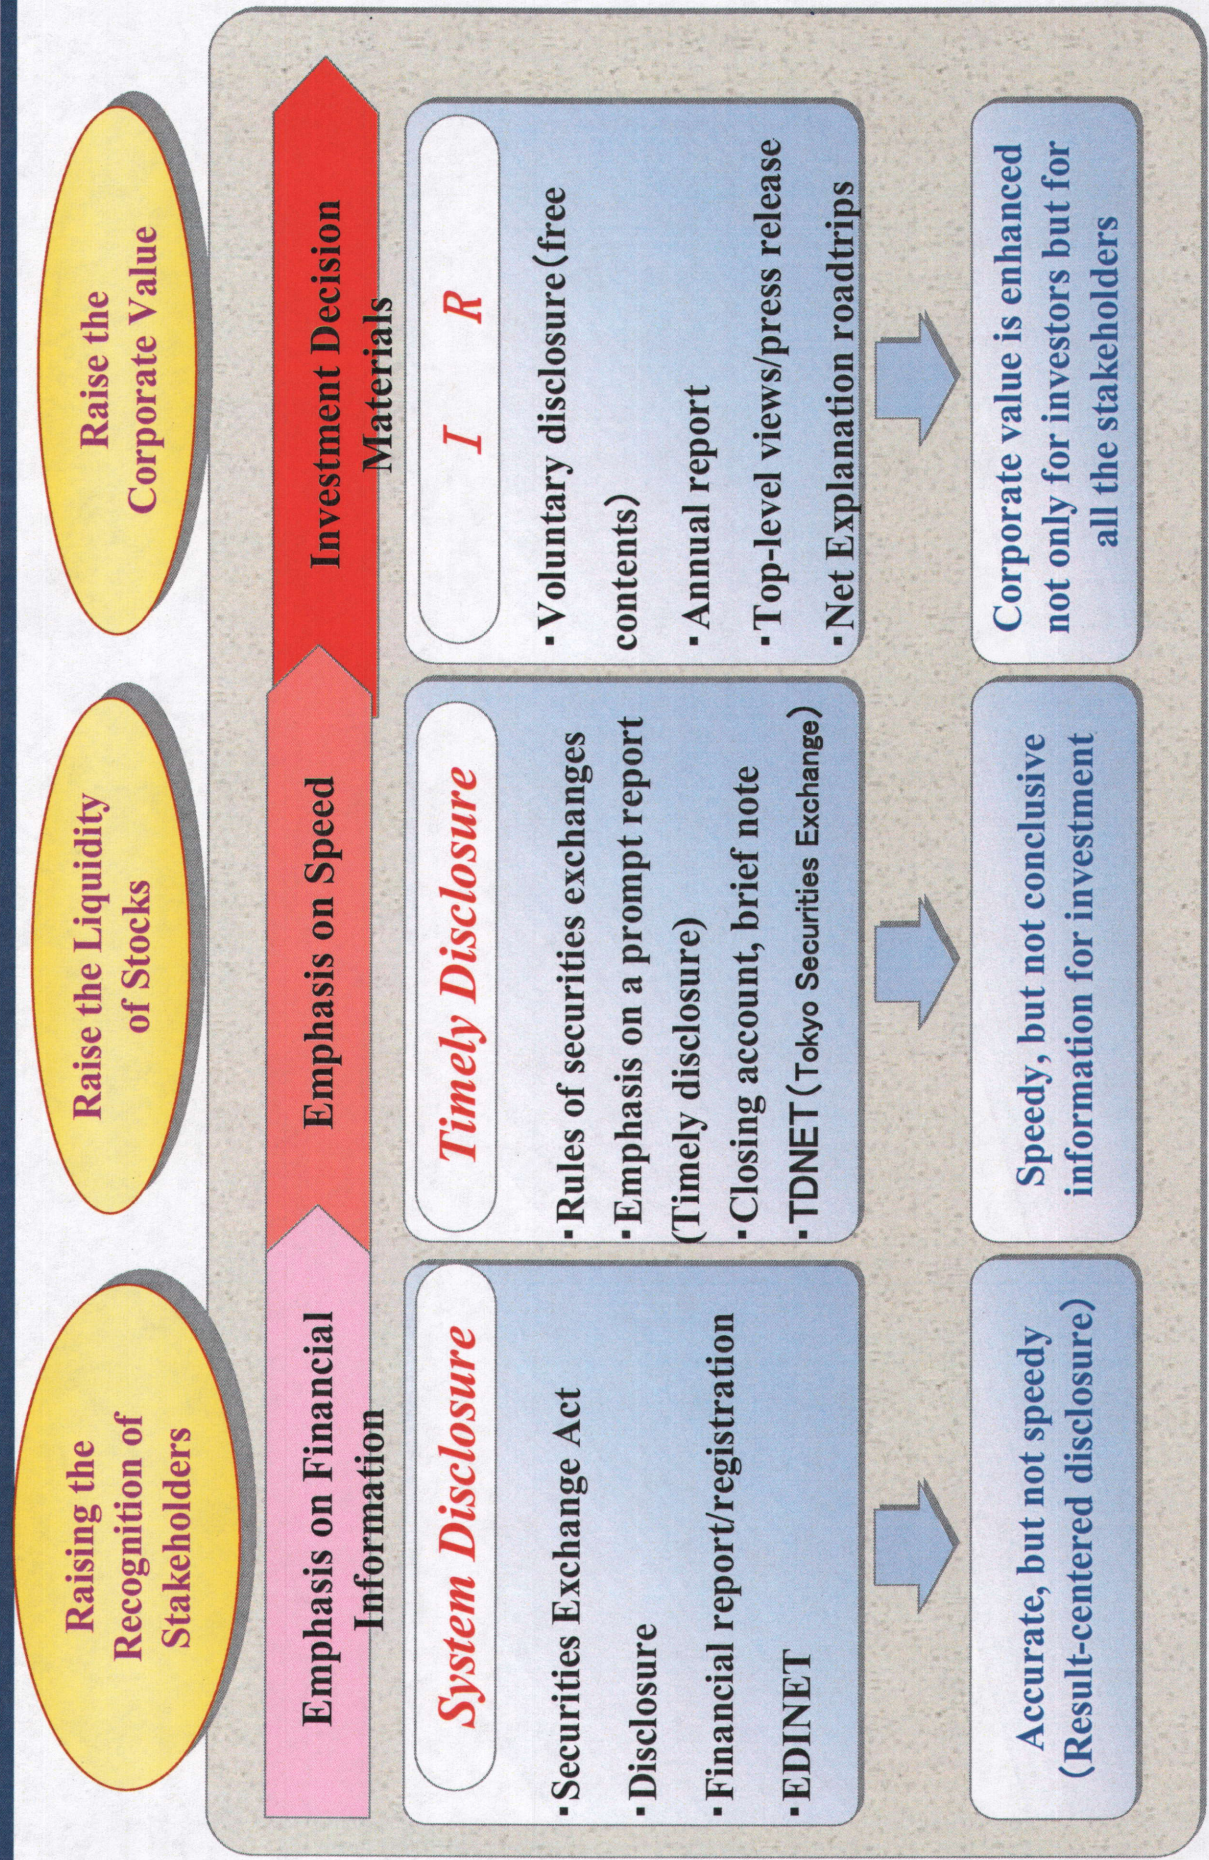

Introduction

Part of eIRM Solutions

FUJITSU SYSTEM SOLUTIONS (Fsol)

From System Disclosure to I R (Voluntary Disclosure)

Advantages and Disadvantages of System Disclosure

System disclosure has many advantages despite an increase of operational burdens

Advantages

Negative points from the corporate viewpoint

Change in Quarterly disclosure obligations

Current value accounting

Decrease accounting

Retirement allowance accounting

Disadvantages

Positive points from the corporate viewpoint

Unit stock system

Approved treasury stock

Number of stocks issued

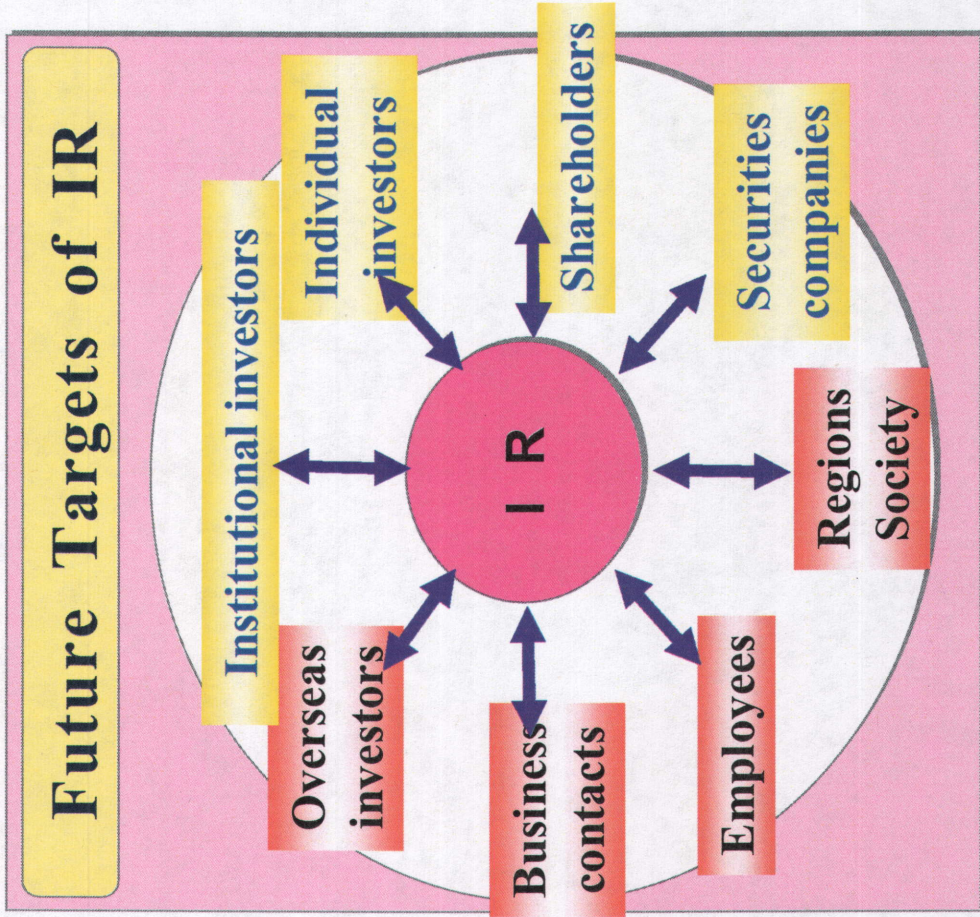

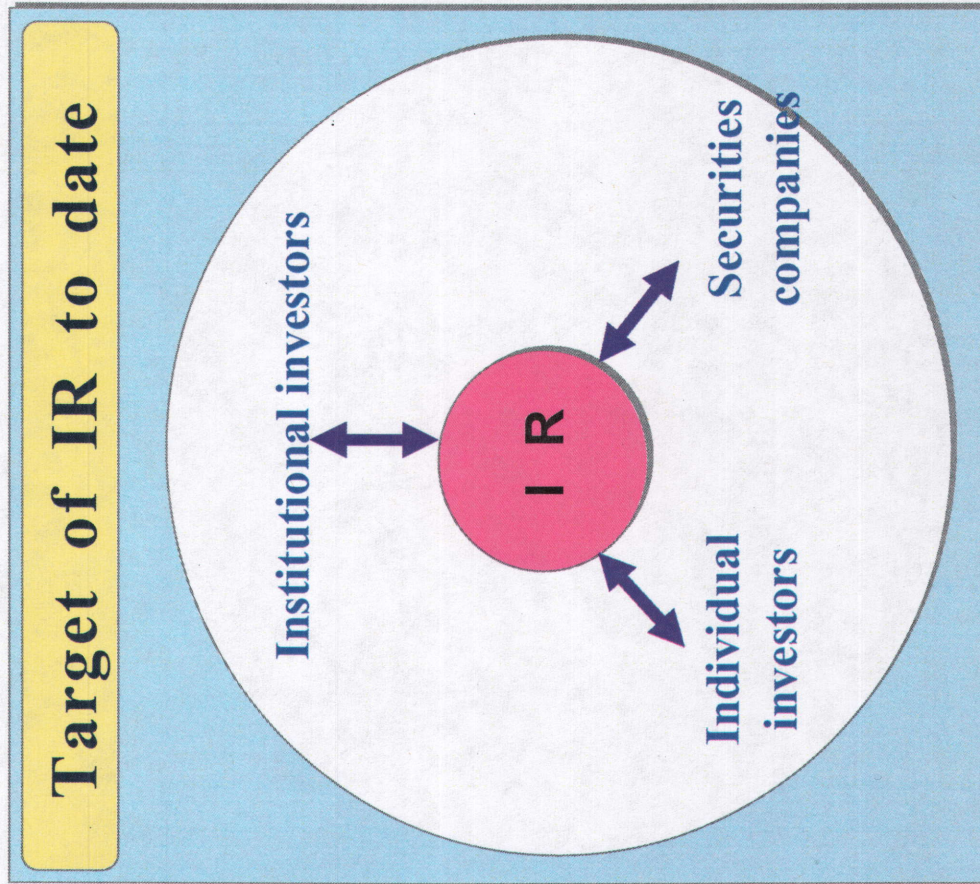

Stock option

Liquidity of the company's own stock is enhanced as a result of IR activities.

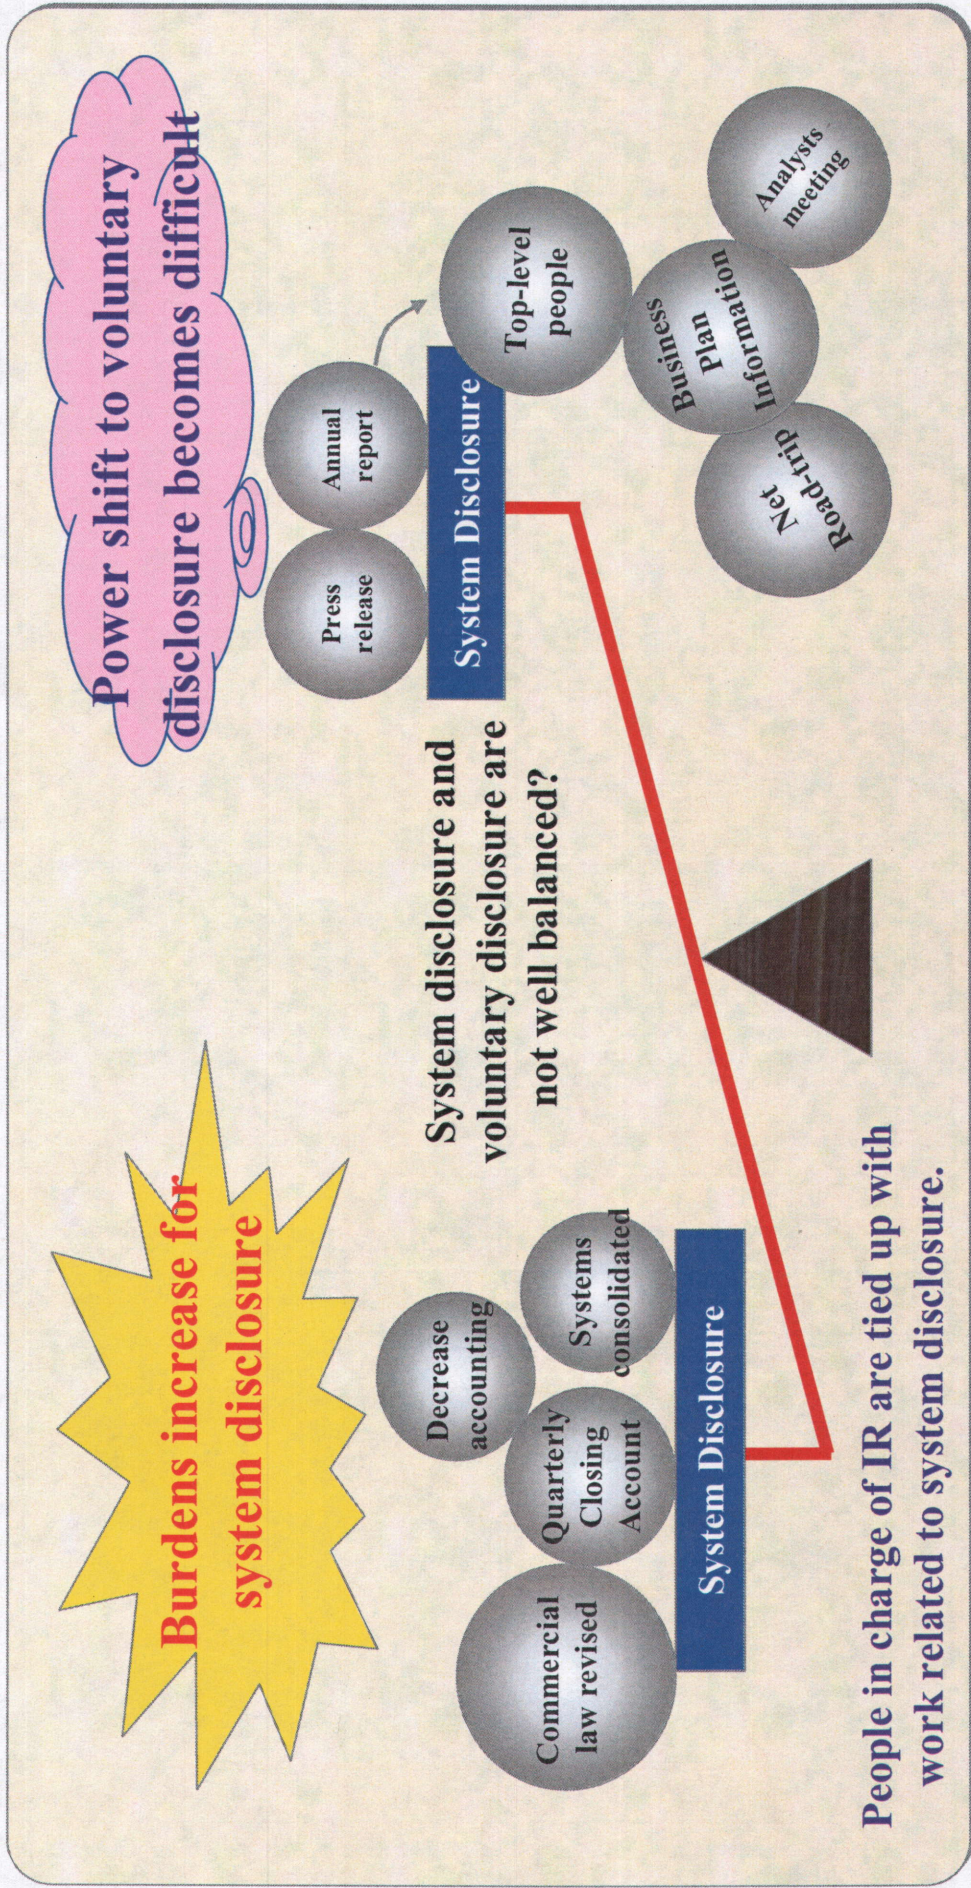

New business chances are opened as a result of the enhancement of the corporate value.

All the stakeholders are the subject of IR activities.

It is necessary to pay close attention to all the “stakeholders (interested party)” related to corporations for “future IR” aiming at the enhancement of corporate value.

Burdens of IR (System Disclosure and Voluntary Disclosure)

To strike a balance between system disclosure and voluntary disclosure, a plan for the facilitation of the system of voluntary disclosure is necessary.

Positive IR Activity and the Enhancement of Its Quality

- Realization of accountability that enhances transparency of business activities
- Disclosure of performance based on revised commercial law and international accounting standards
- Request for fair and timely disclosure to investors and analysts
- **Enhancement of reliability by openly and timely disclosing real corporate conditions**

Speed

Positive IR activities

Simplicity, accuracy

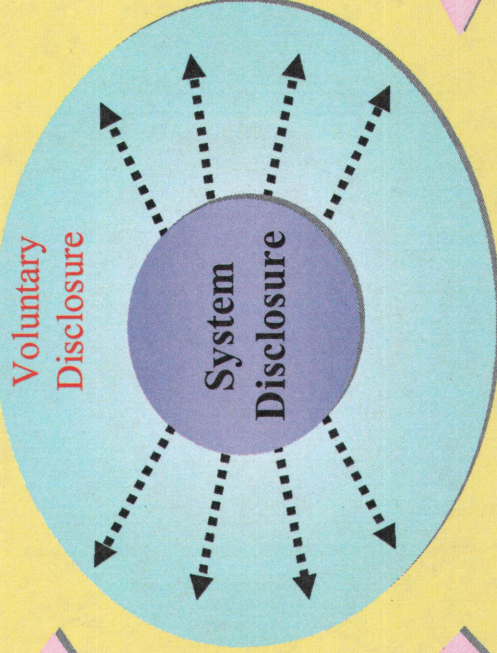

Corporate value is created by positive IR activities surpassing the system disclosure level.

International accounting standards

Quarterly disclosure

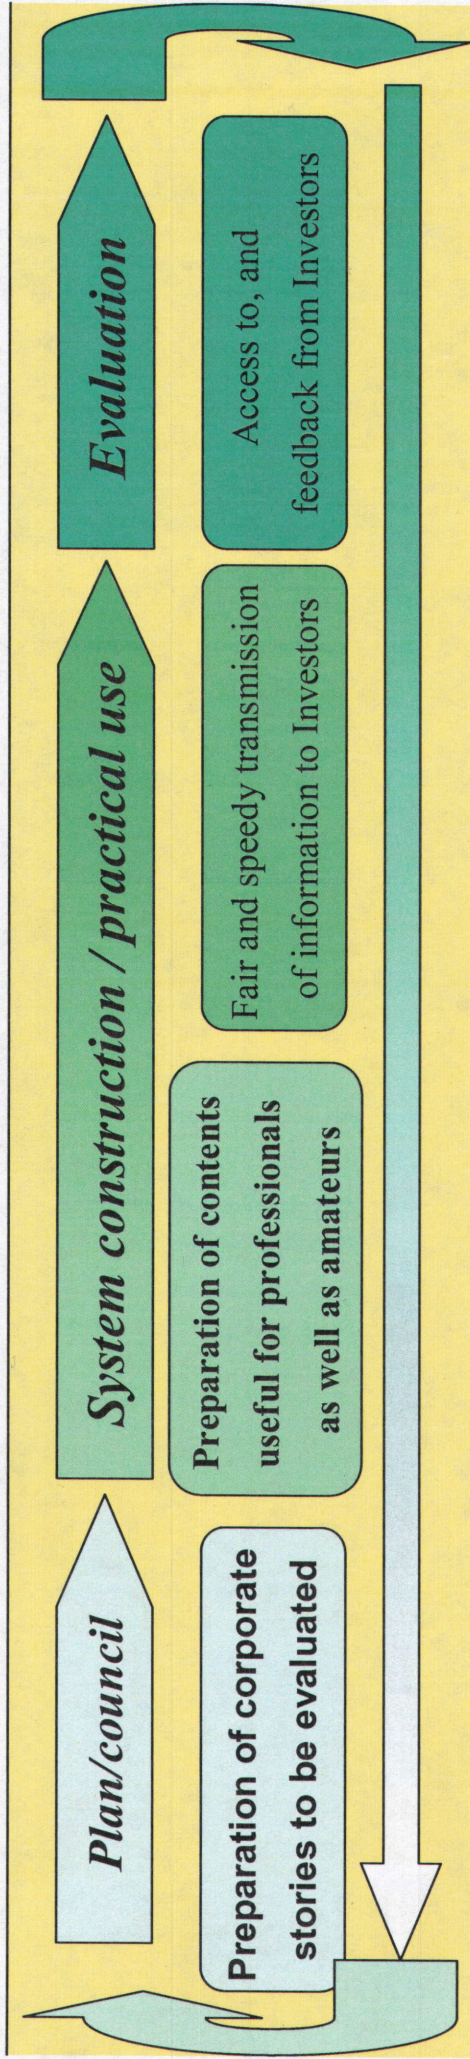

Consolidated account closing

Electronic disclosure (EDINET)

The eIRM Solution for the Entire IR Needs

Supporting diversified cycles of IR activities

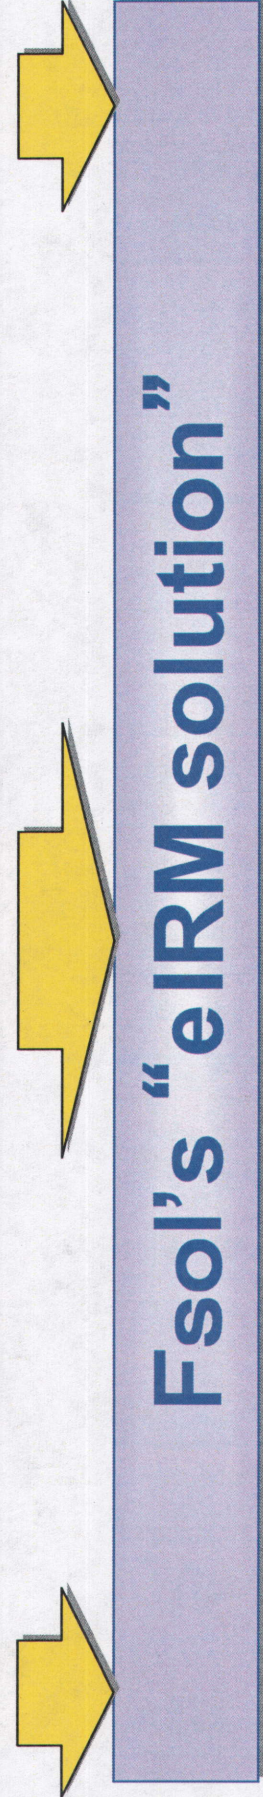

WebSERVE/Disclosure

IR strategic planning consultation

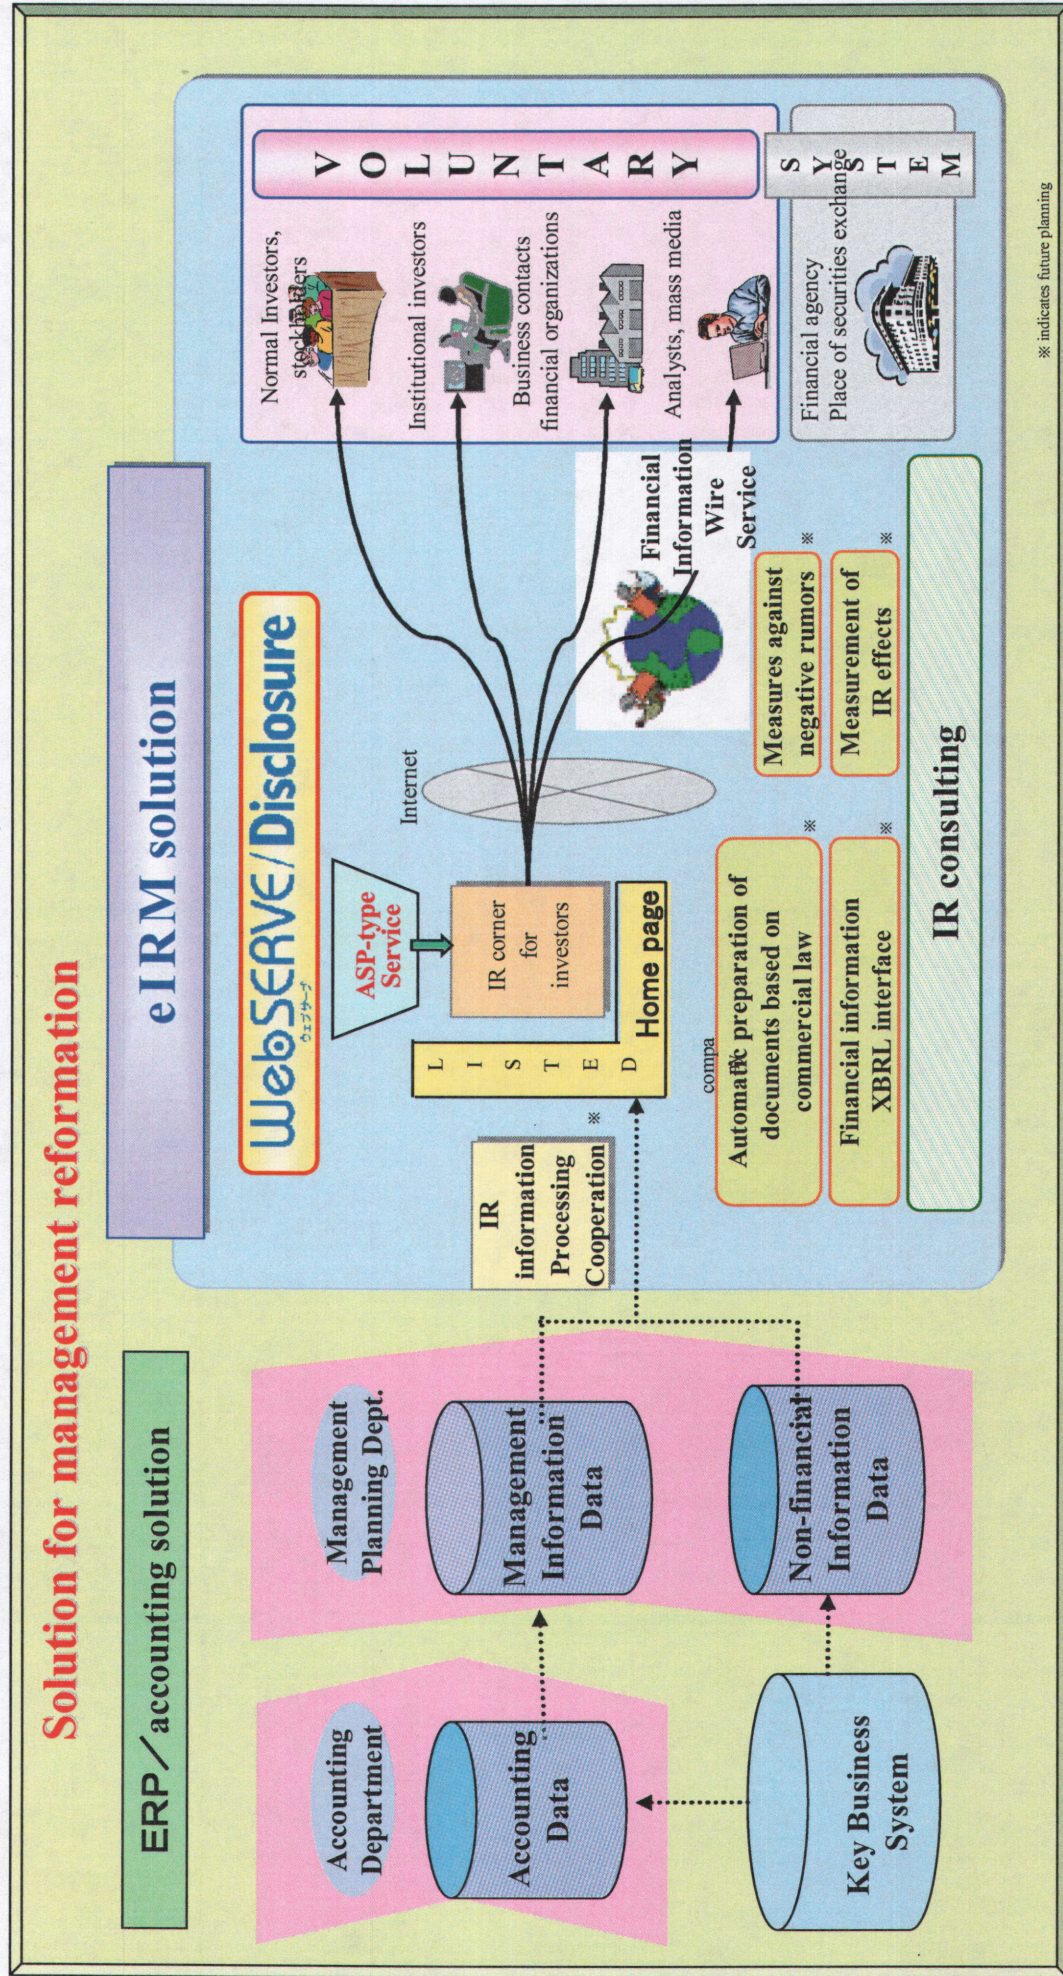

- Global dissemination of Information
- Dissemination of information with no time difference
- Animated streaming of half-yearly and quarterly roadtrips
- Measures for fair disclosure

Measurement of IR effects
Measures against rumors and damages
Others

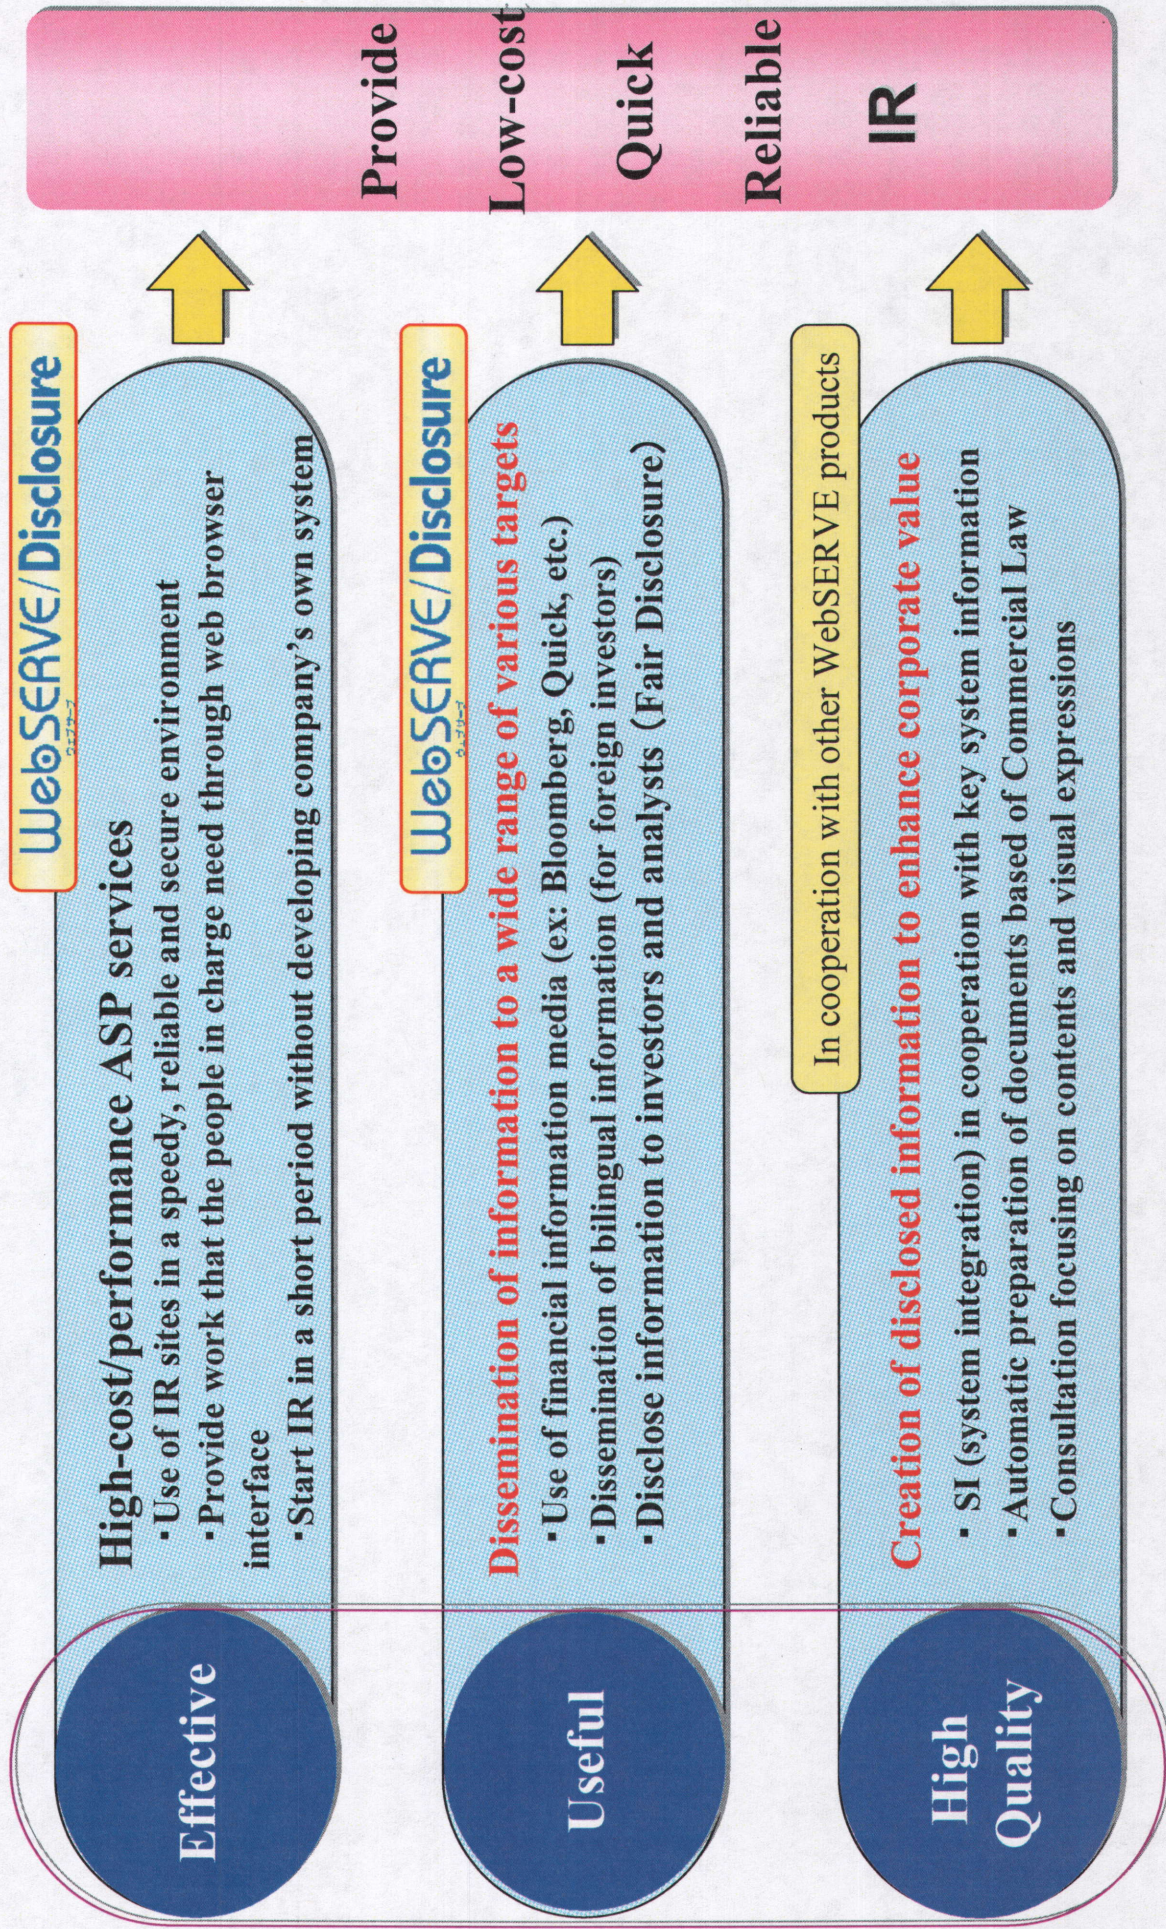

The Core of eIRM Solution, WebSERVE/Disclosure

Extracting data necessary for IR information from the key information system
 Total solution for disclosing information to investors and analysts

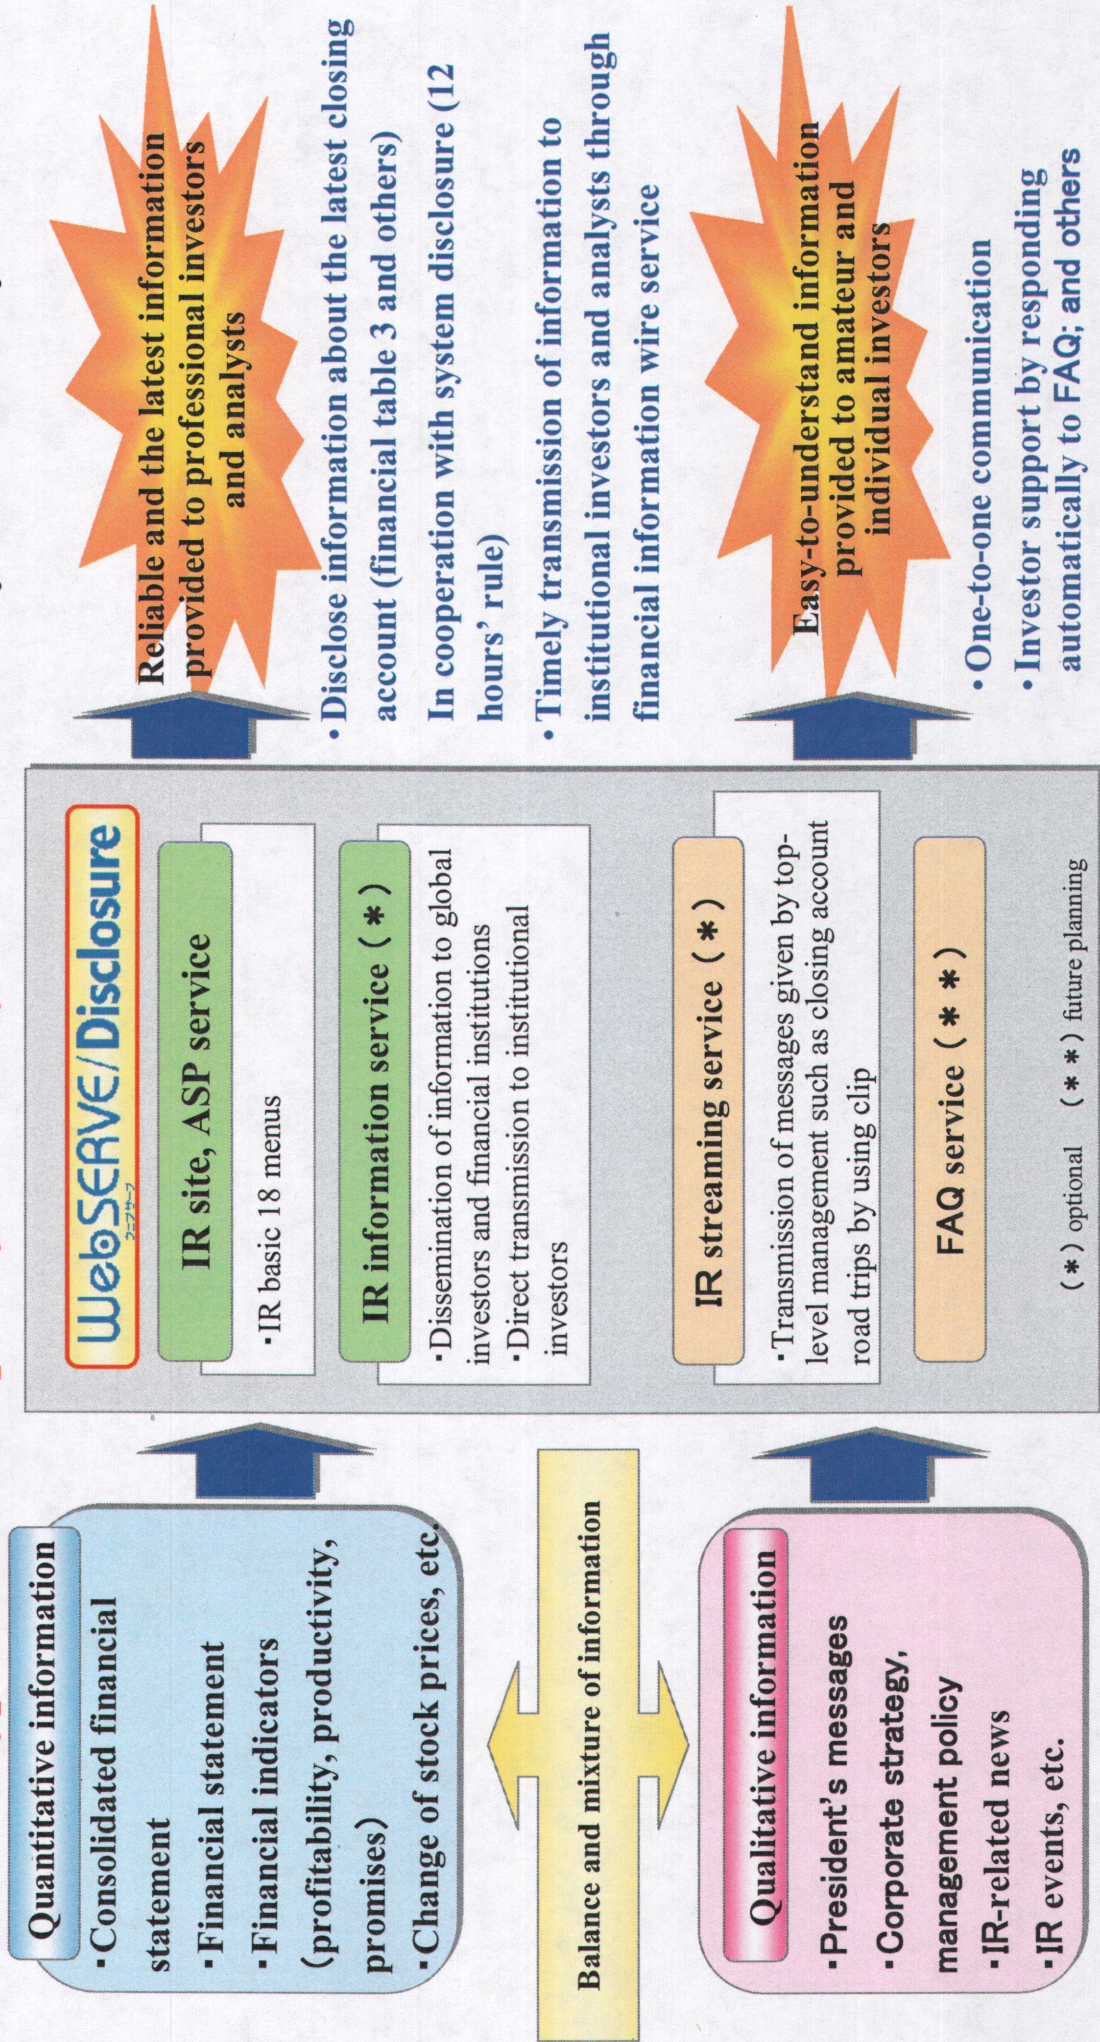

Support of IR Activities by eIRM Solution

Summary of WebSERVE/Disclosure

ASP-type service to “quickly and easily” realize efficiency and mobility of IR

List of Menus for IR Site ASP Service

List of 18 basic IR menus

* indicates menus described in detail in this material

Menu	Description
